

BSA TROOP 137

2010 CHRISTMAS TREE SALE

WALKER CREW CHORES

Opening Crew, Daily

- **Power up the lot per the attached electrical layout**
- **From the shed, place the cash box, customer candy, mistletoe, water kits, preservative, tree bags, tree stands and sales manual on the table. Connect chain saw and place with bow saw and loppers at cutting stand**

All Crews

- **Burn only firewood, and in the burn barrel only. Burning tree trimmings poses a hazard, per the Franklin Fire Marshall**
- **Keep a tree in each display stand at all times. As soon as a tree stand opens up, replace it with a fresh tree from the pile; keep a variety of trees on display**
- **Trim ¼” off the tree trunk with the electric chain saw and place the tree in the water bowl at the stand**
- **Refill empty water bowls**
- **Constantly clear the lot of debris; ribbons, cords, needles, wood scraps, etc. with blowers and brooms from the trailer**
- **As dusk sets in, fuel the generator and start it; instructions at generator!**
- **Sign the log book**

Closing Crew, Daily

- **Disconnect power cords and return them to power source**
- **Turn off the generator**
- **Leave table and cutting stand in place**
- **Return cash box, saws, loppers, mistletoe, water kits, preservative, tree bags, tree stands, sales manual and customer candy to the shed**
- **Tie down the tarps covering the tree storage piles to the trees themselves**
- **If the day’s cash has not yet been collected, leave cash box in shed for later pick up**
